Payroll is more than just calculating your employee's wages

Deductions and adjustments such as tax withholdings, PTO accruals, and 401K contributions need to be calculated correctly. Your employees rely on accurate and on-time wage payment. Mistakes can be expensive and time consuming to fix and no one, employers and employees alike, wants to worry about that.

So ask yourself, how confident are you with your current payroll company?

- Is it too large to truly understand the needs of independent business owners and you feel lost in the shuffle?
- Are you paying for add-on services that you don't use and don't address the needs of your business?
- Do you feel you're taking a risk on a small company that might not possess the required expertise and aren't as accurate as they should be?

ENTER DE NOVO PAYROLL

When we manage your payroll, our experienced professionals take the time to know you and your business. You are assigned a project manager who works with you to provide the services you need, and nothing more. We provide timely and accurate services, tailored to the needs of your business.

TRUST, EXPERIENCE, & EXPERTISE

De Novo Payroll works closely with De Novo HRConsulting and Zinman & Company, offering you expert human resources and accounting services. Together with these sister companies, we are primed to offer you comprehensive and expert business services that will help your company reach its full potential without any surprises along the way.

DE NOVO PAYROLL OFFERS THE FOLLOWING SERVICES:
